

Alpha-Doc® MK4

Automatic Punch

The James Burn Lhermite® Alpha-Doc® MK4 Automatic Punch Machine will give you the extra mile you need to enhance your productivity. This remarkably user-friendly high productivity machine offers a top speed of 90 cycles per minute with realistic outputs of 30,000 - 40,000 sheets per hour.

The Alpha-Doc® MK4 provides large volume hands-free punching of pre-printed, collated documents directly from your copier or printer including mixed stocks from 16 lb. bond to 110 lb. index. It also punches tabs pre-collated into the finished sets (tabs must have minimum .25" shoulder). Hands-free operation means your operator is free to perform other tasks. Simply load the tray, push a button and walk away. Punching a wide variety of material in virtually any size from 5.4" x 5.4" up to 14" x 13", our simplified paper path and unique turnover device with receding stacker provide low waste and assure that pages are kept in perfect pre-collated order.

With a wide assortment of die patterns available and super-fast changeover times, the Alpha-Doc® MK4 will "punch up" your document binding productivity without "punching holes" in your document finishing budget!

FEATURES & BENEFITS

High Productivity: With its new top speed of 90 cycles / minute and the large capacity of the high pile feeder and reception trays (6 reams of paper), the Alpha-Doc® MK4 can punch up to 30,000 - 40,000 sheets per hour without the constant presence of the operator being required.

Versatility: The Alpha-Doc® MK4 can punch a wide variety of paper stock and covers including tab cut sheets and wall calendars with thumbcut, in virtually any size from 5.4" x 5.4" up to 14" x 13".

Easy-to-Use: Just load the tray and push a button, no special training is required.

Simple Formating: Just follow the instructions on the conversational touch screen and, with pre-set standard formats, size change-over can be done in less than 2 minutes.

Heavy-Duty Steel Dies: Guide posts for perfect alignment, quick pin access, and flanged holes to help clear out waste and add longer life.

Punch Die Patterns: 3:1 & 2:1 Wire-0°; 4:1 plastic coil; plastic comb; VeloBind®; 2, 3, & 4-ring binder; and many more.

Installation: Caster wheels make machine placement quick and easy.

Power Requirements: 110v / single phase / 60 Hz

Dimensions: 46" H x 72"W x 28"D (with turnover device)

Weight: 650 lbs. (unpacked)
